www.boonehospital.com

Boone County Hospital (BCH) offers affordable walk-in blood testing with no appointment required.

BCH provides an opportunity to have your blood tested without first seeing a physician. If you want to know your blood type, cholesterol level, or have concerns about diabetes, anemia, or prostate cancer, our walk-in wellness tests may be right for you. Costs are kept low because payment is made up-front, and no insurance filing is necessary.

Lab profiles are offered anytime, with an 8 to 10 hour fast recommended beforehand.

Before your lab test, please stop by Patient Registration located in the BCH Lobby to complete the consent form and make payment. If you wish to receive your results through the BCH Health Portal, please be sure to check the highlighted box on the Requisition Form. If you would like your healthcare provider to receive a copy, please let them know you have had labs completed.

All Profiles

- Log on to boonehospital.com/lab for an explanation of each test.
- An 8 to 10 hour fast is recommended beforehand.
- Can be combined.

For questions about our walk-in wellness screens, feel free to call our Lab at (515) 433-8170.
